

## **Data Deliverables - Dimock Sampling QA/QC Work Plan (2/3/12)**

### **Preliminary Data (Unvalidated)**

Expedited preliminary data turnaround time (<5 days after receipt of samples at lab) will be provided on the following list of compounds/tests:

coliform bacteria  
bis(2-ethylhexyl) phthalate (DEHP) ethylene glycol  
2-methoxyethanol (Ethylene glycol monomethyl ether)  
methane  
2,2'-oxybisethanol (diethylene glycol)  
triethylene glycol  
aluminum  
arsenic  
lithium  
manganese  
sodium  
iron

### **EPA Lab-Validated Data**

Final data reports from EPA labs is expected within 21 calendar (15 business days) of receipt of the final samples for each sample delivery group (SDG) at the lab

### **Tier IV (CLP-equivalent) data packages from TechLaw Subcontracted Labs**

- 1) Northeastern Environmental Lab (Bacteria) - w/ Tier IV lab report to ESAT 14 calendar days of receipt of the final samples for each sample delivery group (SDG) at the lab
- 2) Pace Analytical (Ethylene Glycol) - w/ Tier IV lab report to ESAT 21 calendar days of receipt of the final samples for each SDG at the lab
- 3) Test America (Glycols) - w/ Tier IV lab report to ESAT 21 calendar days of receipt of the final samples for eachSDG at the lab
- 4) Isotech - (Methane Isotech) w/ Tier IV lab report to ESAT 28 calendar days of receipt of the final samples for each SDG at the lab

### **Data Validation of the Tier IV data packages will be performed by EPA/ESAT**

Tier IV Data Validation Reports will be provided to OSC as follows:

bacteria (14 days) \*  
ethylene glycol (35 days)\*  
glycols (35 days)\*  
methane isotopes (35 days)\*

\* Upon receipt of lab data package by EPA/ESAT
